CAREER SUMMARY

Industrial Automation (IA) Sales Manager

Delta Electronics | Sep 2025 – Dec 2025

- Led Industrial Automation (IA) sales for the Singapore market, managing distributors and key customer accounts.
- Responsible for SG market coverage — driving revenue through distributor partnerships and direct sales engagement.
- Developed automation solutions and proposals tailored to customer requirements.
- Coordinated quotations, negotiations, and sales follow-up to close deals.

Deputy Sales Manager

Hiwin Singapore Pte Ltd | Jan 2018 – Present

- Served key customers across Medical, Life Science, Semiconductor, Automation, Transportation, Electronics, and related industries.
- Built and strengthened customer relationships while developing new accounts.
- Analysed requirements and proposed optimised solutions with specifications, drawings, and proposals.
- Negotiated pricing, issued quotations, and followed up closely to close deals.
- Monitored forecasts and collaborated on materials planning and inventory control.
- Provided pre-sales technical assistance, after-sales support, and product demonstrations.

Process Engineer (Internship)

Texas Instruments Malaysia Sdn Bhd | Mar 2016 – Jun 2016

- Evaluated and improved processes and controls for production rate, efficiency, quality, and yield at optimum cost.
- Supported manufacturing operations within Process Engineering controls, procedures, and product specifications.
- Owned and executed process improvement projects.
